

ASP TRADING COMPANY

ABOUT — COMPANY

We started our family business in 2017. In the early years, we spent all our efforts on learning ourselves and our organization, we started with small and local trade and distribution, then in the following years we started foreign trade with countries.

ASP TRADING COMPANY

We believe that having The professional team is very beneficial for both us and our partners, from the supply stage to packaging and from meeting the standards to sending and delivering the goods, we execute everything with our professional team,

we constantly update our team and the best we choose for cooperation because the trust, time and capital of our partners are important to us, we prepare, pack and send the goods based on what the buyers want,

programs that we have been following professionally for several years, participation in exhibitions It is big and important and we have round-the-clock negotiations with traders, all our efforts are to maintain the quality of the product based on the type of packaging, organic and halal product and present it according to the highest standards in the world so that consumers feel comfortable and healthy when using our product.

Our long-term goals are to create stronger distribution networks and to create more and better quality food industries in Iran and different countries and to support low-income families as well as unaccompanied and self-administered women in order to reduce poverty and reduce their social problems.

OUR NUTS

Pistachio exports have turned into a global market due to its high quality and unique taste.

Iranian pistachios are exported to their destination through modern export processes and international standards.

Iranian pistachio exports to countries such as China, India, Europe, and the United States are growing and have found their place in the global market.

PISTACHIO

The advantages of pistachio trade include high income generation and job creation, which have positive effects on the country's economy.

ALMOND NUTS

Mamra almond nuts are one of the most popular types of nuts, with a delicious taste and delicious texture.

WALNUT

Walnut, with its hard skin and soft and delicious kernel, besides its delicious taste, has countless properties for human health.

HAZELNUTS

Hazelnuts, with their prickly skin and small and delicious kernels, are used in a variety of foods, from desserts and sweets to healthy and nutritious foods.

By reducing export costs and increasing advertising efforts, Iranian nuts and pistachio exports have the ability to compete with well-known brands.
